

A special invitation to You and your ED Team

Date & Time: To be arranged

Location: A live moderated session offered virtually through Microsoft Teams

Who's invited? Emergency doctors, nurses, pharmacists, administrators and learners

Program goal: To enable rural health professionals to update knowledge and skills in emergency medicine. We focus on best practice and evidence-based information to empower you to manage patients in your emergency department and safely transfer patients to tertiary care centres.

Format: Sessions geared to engage clinicians through case-based learning, video, and open discussion.

Needs-based topics: We tailor topics to your needs. Always open to requests for new topics – tell us what you need! Not a one-size-fits-all program.

Click on each topic below to view the Learning Objectives.

Sample Topics:

1. [Above the Clavicles: Thinking about Clinical Decision Rules in the ED](#)
2. [Better Together: Palliative Emergency Care \(NEW\)](#)
